SKILLS

Programming Skills

- Java
- Core Java
- oops concepts
- Spring Boot
- Spring
- MySQL
- Javascript
- HTML
- CSS

Tools

- Git
- GitHub
- Postman
- Eclipse
- VSCode

PROFESSTIONAL SUMMARY

Looking to work in an organization that encourages continuous learning, personal growth, and professional development. I am eager to contribute to meaningful projects, collaborate with a motivated team, and take on challenges that allow me to grow both intellectually and professionally.

PROJECT WORK

Project : Slotify – Online Appointment Booking System

- Developed backend services using **Java**, applying **Core Java** and **OOPs** concepts to build scalable components.
- Created secure and **RESTful APIs** using Spring Boot for slot generation, booking, and cancellation.
- Designed and managed relational data using SQL, ensuring efficient appointment and user-role mapping.
- Created simple UI mockups using **HTML** and **CSS** for testing and demonstration purposes.
- Used Git for version control and GitHub for code collaboration and repository management.
- Tested API functionality, edge cases, and role-based access using **Postman**.

Project : Mini Mart

- Designed and developed Mini Mart, a **responsive** online grocery shopping platform using JavaScript,
- **HTML**, and **CSS**. Built an intuitive UI with a modern design to enhance user experience. Implemented
- Ensured seamless navigation with a well-structured layout and interactive elements.
- Focused on performance optimization and responsiveness for a smooth shopping experience across devices.

ROLES & RESPONSIBILITIES

- Designed and developed secure for user, slot management, and appointment handling.
- Implemented **JWT** for login and role-based access control (Admin, Provider, Customer).
- Built logic to generate and manage available time slots based on provider schedules.
- Ensured slot integrity using transactional handling and locking to avoid double bookings.
- Applied Spring Data JPA for seamless database interaction with **MySQL**.
- Used MapStruct to map between entities and DTOs, ensuring clean separation of data layers..

EDUCATION

AMITY UNIVERSITY

Degree in Master of Computer Application

Ranchi
2022-2024

Vinoba Bhave University

Degree in Bachelor of Computer Application

Hazaribagh
2018-2021

CERTIFICATIONS

- **Java Full Stack Development** Course from JSPIDER for 6 months.
- Web Development Training + Internship(virtual) at Internshala for 2 months - [Internshala](#)
- Web Development Internship(virtual) at code soft for 1 months - [CodeSoft](#)
- Conference Presentation: Title : Deep Learning based Image Classification for Automated Face Spoofing Detection using Machine Learning: Convolutional Neural Network Event : 2nd World Conference on Communication & Computing (WCONF 2024) Date : July 12-14, 2024 - [Kalinga University](#).
